

THE NEW WAY OF CONSTRUCTION

Buildings in modular design

ADK MODULRAUM

HOTEL IN HYBRID MODULAR DESIGN

HIGHEST CLAIM, HIGHEST QUALITY

The building of the future will not be built but produced. The Hybrid modular construction of ADK put together all benefits of the important building systems. In our production hall the optimized module will be industrial prefabricated and fully equipped and assembled to a whole at the target location. This guarantees the predefined medical standards and an extremely short construction period. In the summary you receive an attractive Return On Investment.

First Hotel complete constructed in modular design in Russia.
Six floors with 145 double rooms.

TURN KEY HOTEL BUILDINGS

EXTRAORDINARY, SOPHISTICATED, UNIQUE
